

Montana Women Boast of Activity in Assembly

(By Associated Press)
HELENA, Mont., Feb. 12.—Emma Ingalls of Kalispell, Flathead county, and Maggie Smith Hathaway of Stevensville, Ravalli county, are the only two women in the Montana legislature. Both occupy seats in the lower house and both served in the preceding assembly. What they lack in number they have made up in enterprise. They have introduced a disproportionate share of the 177 bills that have made their appearance and many of the most important pieces of legislation have emanated from them.

"Mrs. Ingalls and I are interested in everything that is good and opposed to everything that is pernicious," said Mrs. Hathaway. Like her sister assemblywoman, Mrs. Hathaway has a convincing speaker and has the business of both houses at her finger ends.

"What have we done?" she repeated. "A suffrage memorial asking Congress to enfranchise the women of the land, introduced jointly by Mrs. Ingalls and myself, has already passed both houses, being signed by Governor Stewart and gone to the national houses. It was the first resolution favoring a league of nations to preserve peace."

Get Rid of That Persistent Cough

Stop that weakening, persistent cough or cold, threatening throat or lung affection, with Eckman's Alternative, the tonic and upholder of 20 years' successful use. 50c and \$1.50 bottles from Eckman Laboratory, Philadelphia.

This measure is now in the house, where committee reports are favorable. "Mrs. Ingalls has put in a bill to establish a separate vocational school for girls—a sore need in the state for a long time. I have introduced an equal wage bill to grant women the same pay as men, in the same service. I have also introduced a memorial to Congress, asking that the war and navy departments be instructed to permit the boys in the service to retain the clothing they have at the time of discharge. We are now trying to put through a bill for a minimum wage for women in Montana."

"We have friends or support in the house for a bill to enlarge the state school for the deaf, dumb, feeble-minded and blind at Boulder. This bill provides for segregation of the feeble minded and for the cottage plan, a reform long needed in the Boulder school. It has won for us pleasure in an act of the Americanization of our schools, as it is my belief that if we allow us to safely become one of us, we must learn our language and become familiar with our government and its institutions."

"We are working on economic measures, health insurance and reduction of taxation laws. We are carefully looking over all schools, questioning I was formerly county superintendent in Helena and think I am qualified to speak about education. We are interested in free public night schools for adults, as a part of Americanization."

Both Representatives Ingalls and Hathaway are adept parliamentarians.

CANNOT RESIST LETTER WRITING

(By Associated Press)
ANDERNACH, Germany, Feb. 12.—If there is one thing more than another that American sailors like to write back to the United States it is "We're marching toward the Rhine." It is a rare man who can resist the letter-writing urge when he is able to start his epistles "Somewhere in Germany."

This was demonstrated in the recent march of the 32d division into Germany. On the hike, the men used more than 220,000 sheets of letter paper and envelopes, about three times as much as the "Y" ordinarily uses in the same number of days.

LAWYER'S WIDOW DIES SUDDENLY AT RENO

Within an hour after she was taken ill, Mrs. Lillian Shutter-Cottrell died at one o'clock Sunday morning from heart trouble at her home, 514 North Virginia street, says the Reno Gazette.

Mrs. Cottrell had been a resident of Reno since 1901, coming with her husband, an attorney who died six years ago. Three children, Miss Donna Cottrell of Reno, John S. Cottrell, a fireman on the Southern Pacific railroad, and Russell Cottrell, recently discharged from the engineering corps of the army service. A daughter, Mrs. Victor Coker, died in Reno in May.

Mrs. Cottrell was with friends Saturday night and on her way home about midnight was suddenly taken ill, dying half an hour later. She was 57 years old and a native of Pennsylvania.

Exposition in 1926

Plans are under way for holding, in Philadelphia, in 1926, an international exposition to be designated as the sesqui-centennial exposition. Sesqui is a Latin word meaning one-half more or one and a half times as much. As centennial means a hundred years, sesqui-centennial means a hundred and fifty, as 1926 will be, counting from 1776. The word is an expressive coinage but rather hard for the American tongue to get around. It is pronounced ses-kwi.

HUNGARY MENAGED BY THE BOLSHEVIKI

(Correspondence Associated Press)
VIENNA, Jan. 12.—The menace of Bolshevism has created a critical situation in Hungary whose general outlook is considered infinitely worse than in German-Austria. Under the present government the condition of the country is described as chaotic and a serious Bolsheviki outbreak is expected. With its arm disbanding the government is unable to offer resistance even if it had the courage and energy to do so.

Public money, it is asserted, are being "squandered" at an "appalling rate" and leading financiers express fear of bankruptcy of the state. The whole situation of the country is reported to be "inconceivably worse" than at any time during the four years of war.

The government is preparing to hold general elections but under the present conditions this appears to be a physical impossibility. There are no lists of voters, and the franchise has been extended from 1,500,000 to 7,000,000, including women who have been granted suffrage. With part of the country occupied by enemies, elections in these districts will be impossible, it is declared.

The fear of Bolshevism is growing daily and everywhere the people are urging that the allies intervene. They express the fear that the conditions now existing in Russia will be repeated in Hungary. Hungarian prisoners of war have returned from Russia imbued with Bolsheviki ideas.

13 Dollars—13 Cents

When Swift & Company paid, say,—13 dollars per hundredweight for live beef cattle last year, the profit was only 13 cents! In other words, if we had paid \$13.13, we would have made no profit.

Or, if we had received a quarter of a cent per pound less for dressed beef we would have made no profit.

It is doubtful whether any other business is run on so close a margin of profit.

This is bringing the producer and the consumer pretty close together—which should be the object of any industry turning raw material into a useful form.

This remarkable showing is due to enormous volume, perfected facilities (packing plants strategically located, branch houses, refrigerator cars, etc.), and an army of men and women chosen and trained to do their special work.

This, and many other points of interest, are found in the Swift & Company Year Book for 1919, just published which is brought out for the public as well as for the 25,000 Swift & Company shareholders.

The Year Book also represents the packer's side of the Federal Trade Commission investigation, upon which Congress is asked to base action against the industry.

Many who have never heard the packer's side are sending for the Year Book.

Would you like one? Merely mail your name and address to the Chicago office and the book will come to you.
